## Highlights:

---

Large carrycot for the Apollo stroller

Extra light aluminium chassis

Incl. canopy, carrycot cover and mattress

Soft padding

Suitable from birth

## Productimages:

---

Use our Apollo stroller right from birth with the separately available Apollo carrycot (Apollo-pram)! This large and elegant carrycot is available in different colours and is made of aluminium which makes it very light for transport.

Comfortable. In this cosy carrycot, your little newborn will feel very safe right from the start. The soft padding and comfy mattress offer maximum lying comfort. The inlay and mattress can be removed if necessary. The large canopy, which can also be folded backwards for a better ventilation, protects your little one perfectly against sun, wind and rain. The carrycot is made of water repellent-materials to protect your child in the best of possible ways against all weather influence. Its covering can be removed by opening the zip fastening. And what's more: the carrycot can be folded down flatly for a better space-saving storage.

Simple fixing. The Apollo carrycot is fixed directly on the chassis, while separate adapters are not necessary. This way, the carrycot can be easily fixed on the chassis and removed from it at all times.

Protection against dirt. Thanks to the small feet in dotation, the carrycot has always a stable and safe hold, while staying clean at the same time when put on the ground.

## Colorvariants

345344 Caviar/caviar

345351 Denim/denim

345368 Lunar/lunar

## Equipment characteristics

Aluminium frame

Easy to clean
