High chair

Highlights:

Light and compact high chair

High, adjustable backrest and generous seat

Comfortable equipment

Slim folding size - ideal for small apartments

Depth-adjustable food tray with cup molding and elevated edge

Storage basket for toys

Productimages:

In this comfy high chair, your little one will always find the perfect position - the backrest can be bent backwards and the food tray adjusted in depth. Sit N Fold guarantees relaxed mealtimes with the whole family. And afterwards, this extremely light high chair can be folded down slimly by simply pushing a button.

Comfortable and safe. Your child will sit comfortably in this softly padded high chair with high backrest that can be brought in lying position by using one hand only. The little feet will find place on the footrest, while the slip-through protection and 5-point harness guarantee your little one's safety.

Large food tray. The large tray can be adjusted in different depths in order to adapt to your child's height. The practical cup molding and elevated border ensure that everything stays in place. Should something spill over, the tray can be removed for cleaning. Thanks to the high chair coming along with a tray, it can be used anywhere in the apartment independent of whether there is a table or not. During mealtime, the toys can be stored away in the basket underneath the seat. And when not needed, the tray can be simply hung up on the high chair's side.

Fast and slim folding. After having eaten, Sit N Fold can be folded down fastly and slimly by simply pushing the lateral buttons. This way, you can store it away space-savily in any part of your apartment or bring it along when you go visiting the grandparents'.
