Productimages:

Sleep N Play Center II - a great bed in which even newborns will feel safe from the very beginning. This complete set is the perfect combination for holidays, visiting grandparents, or at home as it includes everything needed for your little treasure. Folded down to a small size, this combo cot can be transported anywhere.

Thanks to the newborn attachment, the lying surface can be adjusted in height offering a high level of comfort for newborns, too. The 2nd level is particularly practical as you can lift your baby out or put him or her in bed easily and in a back-friendly manner. This suspended attachment has a zip fastening for easy removal later on.

On the practical changing mat with raised edge, you can change your baby on the move comfortably and pain-free. The changing mat is secured onto the bed and can be removed at any time. The side pocket keeps nappies and wipes close at hand.

What's more, your child can not only sleep but also play in the Sleep N Play Center II. Here your little one can practice crawling in and out of the side exit. Naturally, the zip fastener can be opened from the outside only. Push Sleep N Play Center II into the bedroom to make a handy extra bed. The side window enables you to always keep an eye on your little one at all times. Sleep N Play Center II has casters for effortless transport into any room, so your little one is always close to you.

Sleep N Play Center II is quick and easy to put up and fold down and can be stored in the bag to save space. The folded-up bed is very easy to carry.

A foldable mattress is already included in shipping. In order to guarantee maximum comfort for your little one, we recommend the comfortable Sleeper mattress and matching Bed Me fitted sheet in size 120 x 60cm. These are available separately.
