

Include:

Extension 21 cm

Highlights:

Easy assembly - no drilling necessary

Optional extras: 9cm or 21cm extensions

Combinable with separately available Y spindles

Productimages:

With this metal extension of 21 cm, the hauck safety gate Autoclose'n Stop and Open'n Stop Safety Gate can be rebuilt into a stair gate in the twinkling of an eye. The extension is simply attached to the safety gate by the practical connector.

Both safety gates can be combined individually with extensions of 21 cm and 9 cm.

From this result the following options:

84 - 89 cm = safety gate + 9 cm extension

93 - 98 cm = safety gate + 2 x 9 cm extension

96 - 101 cm = safety gate + 21 cm extension

105 - 110 cm = safety gate + 9 cm extension + 21 cm extension

117 - 122 cm = safety gate + 2 x 21 cm extension

Do you have a stair railing with round or oval bars up to a diameter of 10 cm? Then you can also attach the safety gate Autoclose'n Stop and Open'n Stop Safety Gate next to the extensions of 21 and 9 cm with the separately available Y-spindles.
