Equipment depends on model - partly with bicolor frame

Productimages:

This dreamily wonderful baby rocker encourages snuggling. It offers your baby perfect comfort from the very first moment. Soft plush, cute hearts and a well-finished frame make this rocker a real collector's item that is simply a must-have for your first baby essentials.

Nice and cozy. The ergonomically shaped and extremely cuddly baby rocker is the perfect place for feeding, playing or sleeping. It offers perfect comfort from birth. Your child will feel completely at ease, because the soft plush fabrics snuggle up closely around your little treasure. The cute seat insert reduces the size of the seat and supports baby's head. The padding at the sides provides extra support for your child.

Learning through play. The two cute pendants on the mobile encourage your child to grasp and play. This keeps your little one busy and, at the same time, helps to develop his or her motor skills. The play arch can be swiveled to the side for feeding or removed completely.

All-round comfort. The multi-adjustable backrest can be adjusted with just one hand, so that your child feels comfortable in the Leisure. When your little one is tired, you can gently rock him or her to sleep in the rocker. The rocking function can also be disabled if required. The 3-point belt keeps your little one safe at all times. The rocker is easy to carry from room to room by the practical carrying handles.

Depending on the model, Leisure is also available with a stylish and bi-color frame.
