This Baby Park offers a variety of options to secure your household in a child-friendly manner. You can let your child play in the playpen. With a diameter of 115 cm there is plenty of room for cars, favourite animals or building blocks. The matching baby blanket is very soft and comfortable and can also be used outside the playpen as a play mat for your child. If you roll it up, you can take it anywhere.

The sturdy, alveolar playpen is assembled using five side parts and the door element. The door can be opened with one hand in both directions. It has a two-fold, manual locking mechanism and locks reliably in a childproof closure.
