

Include:

Door gate
Extension 9 cm

Highlights:

For doors and stairs of 84 - 89 cm
Easy fixing with clamping system
Door opens to both sides with one hand
Fixable on round stair railings with Y spindle
Manual locking mechanism with double safety catch
High-quality metal safety gate

Productimages:

Close N Stop stair gate comes with a 9cm extension. This means that it can be used for door frames and landings with widths of 84 - 89 cm.

Assembly is quick and easy. The metal gate is clamped between walls or in door frames with fixing screws. No drilling required.*

Close N Stop has a double manual locking mechanism. It can be opened with just one hand and engages reliably into the childproof lock.

Close N Stop can also be combined with our separately available Y-spindles to attach it to landings with round bars (optional).

You have a larger opening width? Then we recommend the Close N Stop stair gate that comes with a 21cm extension. This can secure a width of 96 - 101 cm.

* Assembly instructions:

This product is a self-adjusting door/stair gate. What does that mean?

The side part is initially squint, but tightening the adjusting screws at the closure mechanism secures it in a parallel position. Watch our installation video at:
