

Include:

Siblings cart

Highlights:

Twin and sibling stroller with lying position

Fast and compact folding with one hand

Narrow, fits through doors and elevators

With individually adjustable backrests, footrests and canopies

Usable from birth with our 2in1 Carrycot

Productimages:

Roadster Duo SLX is the perfect sibling and twin pushchair as it can be used for babies, as well as for children. It is very slim making it fit through any normal door. Folded down with one hand, it can be transported in any boot.

Double the driving fun from the very beginning. In combination with the separately available 2in1 Carrycot, you can transform the Roadster Duo SLX in a pram for newborns. And when used with the two seat elements, both backrests can be adjusted individually up to the lying position. The footrests can be adjusted individually, too, just like the sun canopies.

Fits any door. Despite the children being side by side, Roadster Duo SLX is so slim with only 76 cm of width that it fit through any normal door or elevator.

Small folding. Thanks to the central release, this double pushchair can be folded down with one hand only into a compact size, making it ideal for any boot. Remounting Roadster Duo SLX is as simple. The continuous push handle make driving very comfortable and the swiveling and lockable front wheels guarantee maximum agility.

The suspension absorbs any unevenness on both sides. This way, Roadster Duo SLX is suitable not only for the city, but also for the country. The 5-point harnesses with shoulder paddings and front bars guarantee safety. And when you need to make a stop, you can use the parking brake that acts on both sides, too. Baby equipment, purchases and toys can be perfectly stored in the large baskets beneath the seats.

The Roadster Duo SLX is the perfect double buggy because your children can sit next to each other and communicate and have fun together.

Colorvariants

512166 Caviar/almond
