Fast to fold down to a small size with one hand

Ideal for a daily life with bus or train

Light and agile pushchair

Combinable with Comfort Fix infant car seat and base - Stiftung Warentest: testing result: GUT

## Productimages:

---

You will love the innovative and intelligent folding technique of this sporty stroller! Everything is faster with Rapid 4X because it can be folded up compactly with just one action. The release loop doubles up as a practical carrying handle, making it easy to lift the Rapid 4X onto the bus or carry it up the stairs, while your other hand is free for your child.

The Rapid 4X is perfect for excursions. The front wheels swivel through 360° and can be locked if required, and the wheels and suspension gently absorb shocks on uneven ground. The pleasantly soft handle has 30cm of adjustment, so it can be individually adapted to your height.

This buggy also offers your child the highest level of comfort. The high-quality, quilted seat has a backrest with a strap for adjusting into a lying position. The footrest is also multi-adjustable. In the horizontal setting it gives your child a large area for resting and sleeping. The extendible sun canopy can be pulled far forward to provide your child with ideal protection against the weather. The exposed netting provides optimum air circulation in an instant. Keep a constant eye on your little one through the viewing window in the canopy. Small items can be stored in the pocket in the canopy. The basket under the seat has space for baby equipment and shopping.

The padded, 5-point belt and front bar keep your child safe at all times and the parking brake acts on both sides for safety. Its folded dimensions are so compact that the Rapid 4X can easily be stored in any trunk.

Our tip!

To go with Rapid 4X, we recommend our Comfort Fix car seat and the matching Isofix Base (= Comfort Fix Set). With its patented passenger protection system, the Comfort Fix car seat always guarantees a safe car journey. Combine Comfort Fix and Rapid 4 to make a practical Shop'n Drive system. You don't need a separate adapter, because the buggy comes equipped with a fixing device.

The hauck Comfort Fix infant car seat and its base have received very good testing results by leading testing institutes.

Rapid 4X is also available as the Rapid 4X Plus Trio Set with car seat, pram and sports buggy.

**NEW!** You can now use the Rapid 4X for even longer, because the buggy carries up to 25kg. This means we are voluntarily satisfying requirements over and above legal standards.
