

Include:

Pram

Highlights:

Comfortable seat with lying position

Fast and compact folding with one hand

Large, extendable canopy

Height-adjustable handle

Combinable with Comfort Fix infant car seat and base - good testing results

Product images:

Toronto 4 promises you some wonderful moments with your whole family. It folds up compactly with just one hand, making it the perfect companion, both for day-to-day life and for travel.

The Toronto 4 is a perfect, extra-light comfort stroller. With its modern optics this stroller really catches the eye. It is all topped off with the practical, one-handed folding mechanism that shrinks the Toronto down into a compact and easily carried format. Once folded down, this light stroller is easy to transport or store in the smallest trunk. The swiveling and lockable front wheels make the Toronto 4 an easily maneuverable companion. The height of the soft handle can be adjusted to make pushing especially comfortable for mom and dad.

Your little one will feel comfortable from birth in this attractive stroller. The softly padded comfort seat, with lying position option and adjustable footrest, also encourages naps on the move. The large canopy can be extended with the zipper and pulled far forward to keep your little dreamer from being disturbed. The exposed netting provides optimum air circulation in an instant. The canopy also has a pocket for little things and a window, so you can see your child. There is enough room in the large basket under the seat for shopping or baby essentials.

The padded, 5-point belt and front bar keep your child safe at all times. The parking brake reliably secures the buggy while you take a break.

Our tip!

The Comfort Fix car seat for newborns and the matching Isofix Base are available to go with the Toronto 4. Separate adapters are not required because they are already integrated into the chassis.

The hauck Comfort Fix Set composed of infant car seat and Isofix base has received very good testing results by leading testing institutes.

NEW! You can now use the Toronto 4 for even longer, because the buggy carries up to 25kg. This means we are voluntarily satisfying requirements over and above legal standards.
