Fast and compact folding with one hand
Height-adjustable handle
Optionally available: Isofix Base

Productimages:

The hauck Comfort Fix infant car seat and its base have received very good testing results by leading testing institutes.

You will love the innovative and intelligent folding technique of this sporty Rapid 4 Plus Shop N Drive Set! Everything is faster with Rapid 4, because it can be folded up compactly with just one action. The release loop doubles up as a practical carrying handle, making it easy to lift the Rapid 4 onto the bus or carry it up the stairs, while your other hand is free for your child. The Rapid 4 Plus Trio Set comes with an Isofix compatible car seat, a changing bag, a footmuff, and a raincover.

Rapid 4 is perfect for excursions. The front wheels swivel through 360° and can be locked if required, and the wheels and suspension absorb shocks when travelling over uneven terrain. The pleasantly soft handle has 30 cm of height adjustment, so it can be individually adapted to your height.

Combine the footmuff with the buggy to use Rapid 4 for your newborn. Your little one will be safe and secure. The Comfort Fix car seat is every bit as simple and can also be used from birth. It is compatible with our hauck Isofix base (available separately) and offers maximum safety for your child on every car journey. An absolutely innovative, shock-absorbent, PU foam has been used in the car seat. It has been patented by Hauck and guarantees particularly good side-impact protection. The 3-point belt makes it even safer. Breathable materials have been used so that your baby always feels comfortable in the car seat. Head protection and wedge-shaped cushion are optionally available.

Combine car seat and chassis into a practical Shop'n Drive system for shopping trips. When you come back from shopping, you can remove the car seat from the chassis and secure it into the car, using the one-handed unlocking mechanism, while your baby stays in the car seat and sleeps on.

If your child is older, he or she can travel in the comfortable sports buggy! The high-quality, quilted seat has a backrest with a strap for adjusting into a lying position. The footrest is also multi-adjustable. In the horizontal setting it gives your child a large area for resting and sleeping. The extendible sun canopy can be pulled far forward to provide your child with ideal protection against the weather. Keep a constant eye on your little one through the viewing window in the canopy. Small items can be stored in the pocket in the canopy. The basket under the seat has space for baby equipment and shopping.

The padded, 5-point belt and front bar keep your child safe at all times. Parking brake that acts on both sides for safety. Its folded dimensions are so compact that the Rapid 4 can easily be stored in any trunk.

NEW! You can now use the Rapid 4 for even longer, because the buggy carries up to 25kg. This means we are voluntarily satisfying requirements over and above legal standards.

Equipment characteristics

	One Hand Fold		✓
	Plastic wheel		✓
	Suspension		✓
