Height-adjustable handle

Combineable with car seat

## Productimages:

---

Viper SLX - a three-wheeler buggy with the "wow" factor. For all parents who enjoy a splash and love a comfortable travel experience. With its lockable, swivelling wheel and good suspension on the chassis, the Viper SLX is well-equipped for every outing. This buggy is also comfortable for parents because the soft, pushing handle can be individually adjusted to their individual height.

You and your child will love the buggy, whose wide, padded seat is generously spacious. If exploring tires out your little one, use the strap to individually adjust the backrest into a lying position. The footrest is also multi-adjustable. The large hood can be extended and pulled far forward over your child to protect against sun or rain. In addition, it has a viewing window so that you can keep an eye on your little one at all times. Your child can enjoy the view through the ventilated side windows.

The 5-point belt and front bar keep your little one safe on the move. The handbrake reliably secures the buggy when you take a break. Keep toys and baby accessories close at hand in the large basket.

NEW! You can now use the Viper SLX for even longer, because the buggy carries up to 25kg. This means we are voluntarily satisfying requirements over and above legal standards.

## Colorvariants

310403 Smoke/grey
