---

Light and agile stroller with lying position for daily life and travels  
Ergonomic handles  
Carrying loop for transportation  
Extreme slim folding

## Productimages:

---

Speed Plus makes everyday life with your little one child's play. The buggy is not only very light, but also extremely nimble, thanks to its swiveling and lockable front wheels. This makes it the perfect companion for small shops or busy, pedestrianized zones. The suspension gently cushions on uneven surfaces.

The drinks holder keeps your child's refreshments ready at all times. There is room in the basket for storing your shopping and baby equipment and the soft handles make for pleasant handling even on longer trips.

Your child will love going out in Speed Plus. The seat is padded and promises a comfortable ride. You can gradually adjust the backrest into a lying position with just one hand. The footrest is also multi-adjustable. Your little one will always be safe on the move thanks to the 5-point belt and front bar. The handbrake reliably secures the buggy when you take a break.

Speed Plus folds up into a narrow shape like an umbrella for transport and can be carried by the practical loop.

**NEW!** You can now use the Speed Plus for even longer, because the buggy carries up to 25kg. This means we are voluntarily satisfying requirements over and above legal standards.

## Equipment characteristics

---

	Plastic wheel	✓
	Suspension	✓
