

Include:

Adapter

Highlights:

Additional adapter for the mounting of a 2nd car seat on Duett 3

Adapter for the Comfort Fix infant carrier

Can be attached easily

Separately available: Isofix-compatible car seat Comfort Fix + Isofix Base as Comfort Fix Set

Productimages:

If you want to use Duett 3 with two infant carriers for your twins, then you will need the additional Comfort Fix Adapter for the lower seat.

The upper infant carrier is directly fixed on the chassis without any adapters, while the second one needs the adapters for fixing instead of the lower seat. This way, you can use Duett 3 from birth onwards even with twins.

Our recommendation 1

Matching the car seat Comfort Fix, we recommend the separately available Comfort Fix Isofix Base. Alternatively also available as Comfort Fix Set.

Our recommendation 2

Matching Duett 3, a separate and second carrycot is available.
